

EXERCISE 8

DR. VICTOR UC CETINA

1. ITERATIVE POLICY EVALUATION

- (1) Implement the Iterative Policy Evaluation.
- (2) Perform experiments with the problem of “A Small Gridworld” depicted in page 5 of the presentation on dynamic programming. This problem is also explained on page 76 of the book by Sutton and Barto:
<http://incompleteideas.net/book/RLbook2018.pdf>
- (3) In the report for this exercise you should include the final Value Function.

2. DEADLINE

Please handle your report at most by January 28-30.
